Showers: 2
Fuel tank: 4500 L
Water tank: 1650 L
Holding tank: 250 + 60 L

This Defever 49 Pilothouse has spent the past five years in Fuengirola, where she has only been used as a holiday home during the winter. The boat has been updated for just over 100,000 EUR since 2016 with, among other things, a new Mastervolt shore power system, a new SeaCross navigation system and a 50” Sony TV with an elevator system and a subwoofer and soundbar. In 2020, new batteries with a 2-year warranty were installed for the stern and bow thruster, and the boat was equipped with two new electric fresh water toilets.

This 49 Defever Pilothouse combines an elegant cruising layout with a robust construction, and carries herself gently even through rough seas. She has an elegant teak interior with a midships owners’ cabin, a roomy saloon with a large, well-equipped galley as well as plenty of storage space. She is a very comfortable, spacious cruiser that has been kept continuously up to date and well-maintained.
